

Re: Neighborhood Meeting – Proposed Street Rehabilitation Improvements – City Project No. 16-102B, 150th Street

The City is proposing to rehabilitate a portion of 150th Street abutting your property in 2016. Advanced planning for the project is ongoing, but the project has not yet been formally ordered by the City Council. An informational neighborhood meeting has been scheduled to provide property owners an opportunity to ask questions and offer input on the project. The neighborhood meeting will be **Thursday, January 14, 2016 from 3:30 to 6:30 p.m. in the Council Chambers at Burnsville City Hall, 100 Civic Center Parkway.** There will be no formal presentation, but City engineering staff will be available to take comments and answer questions. Engineering staff is also available to meet with individual owners during normal office hours. You will also have the opportunity to attend the public hearing tentatively scheduled for Tuesday, March 8, 2016 when the merits of the project will be formally considered by City Council. A public hearing notice will be sent to you prior to this meeting.

Street rehabilitation involves specially assessing abutting properties for a portion of the street improvements according to City policy. The City will fund the entire cost for the utility improvements. Special assessments are based on the length of footage your property has adjacent to the City street right-of-way. This length is measured thirty feet (30') back from and parallel to your property line(s) that abut(s) a street to be rehabilitated. The City also assesses for new roadway elements such as curb and gutter that didn't exist prior to the roadway being rehabilitated. The assessment rate is based upon the land usage of the property as shown in the table below:

Proposed Assessment Rates	
Single Family Residential Rate	\$12.17/foot
Multi-Family Residential Rate	\$15.24/foot
Other Land Use Rate	\$19.57/foot
Windemere Townhomes (per unit Rate)	\$304.35/each

Preliminary assessment amounts will be available for review at the neighborhood meeting. Property owners can choose to pay the assessment in full in 2016 or pay with interest over a period of years. A written notice of your final assessment amount will be mailed to you in August, 2016 prior to the assessment public hearing in September, 2016. The City Council will formally consider adoption of the final assessment amounts at that time. City staff is available to answer questions regarding the City's assessment policy and how it pertains to your property. Please contact Molly Stone, Special Assessment Accounting Technician (952-895-4495 or molly.stone@burnsvillemn.gov), regarding assessment questions.

Street rehabilitation is pavement resurfacing accomplished by removing a layer of the existing pavement and constructing a new bituminous surface. Concrete curb and gutter and sidewalk that are either damaged, heaved, or do not drain properly will be replaced. Existing pedestrian curb ramps will be replaced with those that meet American with Disabilities Act requirements. Roadways will remain open during construction, and access to your property will generally be maintained for the duration of the project. If you have questions or concerns, or are unable to attend this neighborhood meeting, please contact me at 952-895-4457, or at brian.connolly@burnsvillemn.gov.

Sincerely,
City of Burnsville

Brian Connolly, P.E.
Assistant City Engineer
952-895-4457
