\$9.2 MILLION PLANNED FOR BURNSVILLE STREET, UTILITY PROJECTS IN 2016

In March, the Burnsville City Council will consider nine street and utility projects for construction in 2016. These projects, estimated at \$9.2 million, are based on the City's five-year Capital Improvement Plan. The plan prioritizes improvements based on age and condition of the roadway and replacement schedules of utilities located under the street.

Neighborhood meetings will be held in January for affected residents, who should have already received notices. Projects planned for 2016 include:

Street Reconstruction

Typically includes replacing aging and failing roads. The road is removed, ground up and combined with gravel to create a strong base for the new road. Utility work and curb replacement may also occur.

Anticipated Start: Mid May **Anticipated Completion:** Sept. 30

- Chateaulin Area (*south of 130th Street East and east of Parkwood Drive*)
- Highland Forest 3rd Addition (*near Upton Avenue, south of Brookview Drive and north of Highland Drive*)
- Portland Avenue Roundabout (*north of Highway 13*)
- West Buck Hill Area (*east of County Road 5 and south of 155th Street West*)

Street Rehabilitation

Typically includes removing the top two inches of existing road and replacing it with asphalt. The new surface has an approximate lifespan of 20-25 years.

Anticipated Start: Mid May **Anticipated Completion:** Labor Day

- 150th Street (*from County Road 5 to Greenhaven Drive*)
- Dupont Avenue/126th Street/Cliff Road (*between Country Road 5 and I-35W*)
- Portland Avenue (*from Highway 13 to Burnsville Parkway*)

Street Reclamation

Typically a hybrid of rehabilitation and reconstruction. Reclamation is a cost-effective method for upgrading a street that is too deteriorated for rehabilitation, but has existing utilities and curbs that do not need total replacement.

Anticipated Start: Mid May **Anticipated Completion:** Labor Day

- Maple Island Road (from Crystal Lake Road West to 158th Street West)
- Wood Park Area (between Portland Avenue and County Road 11)
