## **BURNSVILLE TO HOST OPEN HOUSE ON WATER, WETLAND MANAGEMENT PLANS**

The City of Burnsville will hold a Public Open House to provide information and receive input on updates to the City's Water Resources Management Plan (WRMP) and Wetland Protection and Management Plan (WPMP).

The City is currently updating these plans to align with local, state and federal goals and policies and to meet the City's water resources goals.

What: Public Open House  
When: Wednesday, June 29 | 3:30-6:30 p.m.  
Where: City Hall Council Chambers  
100 Civic Center Parkway, Burnsville

Residents will have an opportunity to provide input on a range of water resource topics addressed in the WRMP and WPMP, including:

- Lake water quality goals
- Pond and water body high water levels
- Localized flooding
- Design standards for development and redevelopment projects
- Wetland management.

Input can also be provided online by completing a survey at [www.burnsville.org/NRManagement](http://www.burnsville.org/NRManagement). Copies of the City's current WRMP and WPMP are also available.

The City will consider all comments as the plan update process moves forward, and will hold a second open house later in the summer of 2016.

*With questions or feedback please contact the City's WRMP and WPMP Update engineering consultant Rebecca Nestingen at 651-490-2175 or [rnestingen@sehinc.com](mailto:rnestingen@sehinc.com).*
