**FIRE SPRINKLERS SAVE BURNSVILLE BUSINESS**

*Burnsville Fire Department Responds to Fire at Princess Marble & Granite, 14255 Southcross Drive W.*

On Wednesday April 26 at approximately 10:15 p.m., the Burnsville Fire Department was called to a commercial building fire at Princess Marble & Granite located at 14255 Southcross Drive W.

Dispatchers advised responders that the fire likely involved chemicals that could pose a risk to emergency responders. Burnsville Police arrived on scene first, and made sure that everyone had safely evacuated the building.

Upon arrival, fire crews found that the fire had been contained to a small area in the building's warehouse by an overhead fire sprinkler. Crews were able to quickly extinguish the fire, and damage was contained to a single machine.

"Because of the effectiveness of the fire sprinklers, no other surrounding equipment or products sustained damage as a result of the fire," said Burnsville Assistant Fire Chief Doug Nelson. "The business was able to resume its normal operations the next day."

Savage Fire Department, Apple Valley Fire Department and Allina Ambulance provided mutual aid assistance on the call.

*The cause of the fire remains under investigation by investigators from the Burnsville Fire Department. For more information on the Burnsville Fire Department visit [www.burnsville.org/fire](http://www.burnsville.org/fire).*
