State law requires that all cities and counties in the Twin Cities seven-county metropolitan area adopt a Comprehensive Plan. These plans provide a road map for communities looking 20 years into the future.

Burnsville's 2040 Comprehensive Plan will present policies, recommendations and strategies related to land use, housing, transportation, economic development, parks and infrastructure.

The plan specifically looks at new business and living opportunities that could be supported by Bus Rapid Transit (Orange Line), which is meant to enhance transit between Burnsville and downtown Minneapolis. Other focus areas include development in the Heart of the City, Burnsville Center, the Minnesota River Quadrant and other employment centers.

The Burnsville Planning Commission and City Council will formally review the plan in November. After a mandatory six-month review period, the plan will be submitted to the Metropolitan Council for approval.
