

## I LOVE BURNSVILLE ESSAY

The heart of the city's splash pad is the place my family would go to every summer because it is fun to go there with my family. We just have lots of fun there! I love the performing arts center because there was a lot of art that I enjoyed seeing. Last year I attended to the art festival and loved it. I can't believe that there were about 61,000 people there. Wow! I think a lot of people love this city! I feel safe everywhere around Burnsville. Last winter my sister and the Sioux Trail Elementary school choir sang at the Heart of the City. I loved the lights that they hung on the trees at Nicollet Avenue. And that's why I love Burnsville!
