

**Re: STREET RECONSTRUCTION**  
**CITY PROJECTS: 14-102A: EWING AVE & 145<sup>th</sup> ST.**  
**14-102B: PLYMOUTH AVE.**

Dear Property Owner:

The City has awarded a contract to Park Construction, Inc. to perform a street rehabilitation project in your area as part of the City's 2014 Street Reconstruction Project. The project schedule for this area includes a tentative start date of June 17<sup>th</sup>. Street rehabilitation work is anticipated to take approximately four (4) weeks, with project completion expected on or before August 29<sup>th</sup>. The assessment hearing for this work is tentatively scheduled for September 2, 2014; you will receive further notice of this meeting prior to that date.

Following the initial Neighborhood Meeting for this project on January 9, 2014, Engineering Department staff has been in contact with property owners in this area; however if you have not notified City staff about underground sprinkler systems abutting the roadway, landscape elements in the right-of-way, planned parties or events (i.e., graduations, weddings, etc.), or any other issues you think we should know about, please let us know so we can discuss these matters with you and the contractor. We welcome any information that will help make this project a success.

It is important that property owners mark any irrigation system facilities that may exist within the project right-of-way, generally within 10' to 15' of the back-of-curb. The City will attempt to protect all irrigation system components; however, some may get damaged due to the work. The City's Contractor will replace any damaged irrigation system that is marked and/or identified in the construction process.

The City will be providing weekly internet, email, and text messaging updates on the project. In order to receive email and text message updates, visit [www.burnsville.org/streetrecon](http://www.burnsville.org/streetrecon) to enroll in this notification service. This website also is where you can view the updates directly.

The diagram on the backside of this letter shows the names and phone numbers of the City construction inspectors. *These inspectors will be your primary contact about construction-related items.*

If you have questions or comments, please feel free contact me via phone or at the e-mail address below.
